How to connect to SVE from Singapore

To access ebooks, ejournals and other online resources, you must begin by connecting to Southampton Virtual Environment (SVE).

You can connect to SVE from SIM, at home or from anywhere with an Internet connection.

1. Open Mozilla Firefox or Google Chrome (SVE does not work well with older versions of Internet Explorer)
2. Go to:  https://vdi.soton.ac.uk
3. Log in with your University of Southampton username and password (the one you use for Blackboard)
4. Click on Win 8.1 Student

Note: You may need to add vdi.soton.ac.uk to your browser pop-up exclusion list
5. Your computer will connect to SVE (this may take a few seconds/minutes). Your SVE desktop should look something like this:

SVE allows you to access Internet browsers, Microsoft Office and other software, in addition to online Library resources.
